

NORFOLK SHOCKED BY BRUTAL MURDER

Body of Armistead Foster, a Colored Man, Found Partially Buried in a Back Yard.

SKULL SPLIT WITH AN AX

[Special to The Times-Dispatch.] NORFOLK, VA., February 8.—The murdered body of Armistead Foster, colored, was found at an early hour this morning, partially buried in the back yard of the house 75 Liberty Street, and the police are scouring the city and vicinity for John Salter, another negro, charged with being the murderer.

The murder was committed in a room on the second floor of the house. Foster's skull had been split open with an ax. The murderer dragged the victim through the house, down the stairs and into the back yard, where an attempt was made to hide the crime by burning the body. In the hurry the murderer left one of the feet of the dead man exposed, and the gruesome find was made by Patrolmen Barron and Shipp.

Slip by the Police.

When the police arrived on the scene, called by Nellie Gibson, a negro woman, who reported the disturbance, she was coming out of the house, they tried to stop him, but he took leg bail. Two shots were fired at his fleeing figure. Both men lived in the house, and jealousy is believed to be at the bottom of the trouble. That one had been killed, but the police are holding her, confident that she kept quiet in order to shield Salter and give him an opportunity to escape.

A MUNICIPAL COMPLICATION.

Williamsburg Council in a Tangle Over Gas Works Contract.

[Special to The Times-Dispatch.] WILLIAMSBURG, VA., February 8.—A rather queer case has come up before the City Council in regard to the money which the city on the gas plant which was established here last summer, and steps are being taken to prevent, if possible, the double payment of the bill.

The amount involved is in excess of \$2,400. In September last, the contractor who put in the gas plant, assigned his claim in full to the Davis Acetylene Gas Company, of New York. Recently Mr. Umboltz appeared before the City Council and asked that his claim be settled. The Council gave him a certificate of indebtedness, as no funds were in hand at the time.

It appears that the Light Committee had been duly notified of the assignment of Mr. Umboltz's claim, but that the Council had been left in ignorance of the matter. A special meeting of the Council was called, but as only the president and one other member were present, no action was taken. The matter will be taken up at the next meeting and action taken to protect the city against any trouble by rescinding the certificate of indebtedness given or taking any steps necessary. Should the certificate be rescinded, the matter would become a serious one, as it would necessitate payment of the bill twice.

SUPERINTENDENT CUTS MAN

[Special to The Times-Dispatch.] PETERSBURG, VA., February 8.—The Junior Civic League, an auxiliary to the Ladies' Civic League in the work of beautifying and improving the sanitary condition of the city, was organized today at a meeting of school children, representing five of the public and two of the private schools of Petersburg. The younger organization is to be composed of two companies—one of boys and one of girls—from each school in the city, and at today's meeting Edwin Burgess, of the Petersburg High School, was elected president of the league, with Miss Mary B. Peebles as secretary. The children are manifesting great interest in the work, and will compete for prizes to be awarded for the best work in the improvement of appearance of roads and private premises. The meeting was held in the lecture room of the Washington Street Methodist Church, and was conducted by ladies of the Civic League.

In the Mayor's Court this morning A. W. Robinson, a superintendent for the Atlantic Dredging Company, of Philadelphia, which is now cutting the new channel for the Appomattox River, was sent out to the grand jury to answer the charge of feloniously cutting a young white man named Grinstead, who is employed on the company's suction dredge here, and was seriously cut in the ankle during a fight with Robinson. The testimony is that some negro laborers complained to Superintendent Robinson that Foreman Grinstead did not use proper care in exploding dynamite, with which he was blasting rock, whereupon Robinson was said to have told Grinstead that he played the fool, which brought on the quarrel and fight, resulting in the cutting of several leaders in Grinstead's right ankle. Robinson was today taken before Judge Mullen and bailed in the sum of \$200, M. A. Finn furnishing the security. He is represented by Bernard Mann. W. R. McKenney is counsel for Grinstead.

Telephone induced the Governor to say that if Solicitor E. C. Brooks, who procured the conviction of Jones, could be gotten to tell him personally that he recommended executive interference with the execution, he would do so. Mr. Brooks came to the telephone and talked over the situation with the Governor. He would not make out any recommendation for commutation. Therefore the Governor said he would take no action, so it looked like the hanging must take place. About thirty minutes later the hour set for the hanging. Solicitor Brooks called Governor Glenn up again and said such pressure was brought to bear on him to recommend commutation that he must ask the Governor to allow him to deliver a speech to the Legislature. The Governor had been stated that the Governor would not commute unless he or the trial judge recommended it. Governor Glenn then consented to relieve Jones ten days to February 18th.

TO FIGHT PROHIBITION

Liquor Dealers in North Carolina Trying to Rally Their Forces.

[Special to The Times-Dispatch.] WILMINGTON, N. C., February 8.—That the liquor dealers of North Carolina intend to make a serious effort to fight the enactment of prohibition in the coming State election is made manifest by a call to arms that has just been made. The local liquor dealers' association has issued a call to other liquor dealers in the State to rally in towns like Salisbury and Winston, calling for a meeting to be held in this city Monday, February 10th, the object being to organize a State association to affiliate with the National Liquor Dealers' Association, and fight against prohibition.

The letter sets forth the fact that an organized fight must be made, articles being inserted in leading newspapers of the State and ordering and demanding that there is strong hope for the cause, as there is a probability that the discontented elements in North Carolina can be organized against prohibition. It gives as its basis the fact that the Republicans, the Democrats who have been made mad by hostile legislation, and those Democrats who deem the provisions of the Long-Dowd bill, under which the election is called, a disgrace, as it does not permit the vote in prohibition places to pass on any but the status of the wet places.

The outcome of the meeting will be awaited with interest, especially as the vote of the liquor dealers is sought to make large monetary contributions. The thinking that there is no hope whatever under the legislative act.

THE NEWS OF ASHLAND.

Mission Room for St. James Church. Bank Elects Officers.

[Special to The Times-Dispatch.] ASHLAND, VA., February 8.—The vestry of St. James Episcopal Church have decided to erect a mission room for the use of the Sunday school and other purposes that may arise from time to time. The building, it is estimated, will cost about \$1,000.

At the annual meeting of the Hanover Bank, held this week, the following officers were re-elected: S. J. Dowell, president; T. K. Sands, vice-president; C. H. Foy, cashier. Directors: L. E. W. Mevberg, Dr. A. S. Taylor, J. M. Cox, J. B. Hall, S. J. Dowell, J. O. Hughes, W. P. Shelton. The institution is in a very flourishing condition and has been of great benefit to the people of this section. The bank has recently purchased the building in which it started business four years ago. It has been remodeled and arranged in an up-to-date style, giving every accommodation to its patrons.

Ashland may expect in a very short time a first-class electric light service by the Virginia Light and Power Company. Material for the construction of the lines has all been purchased, and already much of it is on the ground. A force of men will be put to work next week on the pole line, as soon as possible the current will be turned on. Contracts have been made for nearly 300 lights in the business section. As soon as these are in operation the company will be ready to give the service to the residences. The scale of prices is very moderate and attractive, which insures a good business for the company.

Several cars of sewer pipe have arrived in the past few days for the Weston Sewerage and Gas Company. Mr. John D. Harris, general manager, will continue with a large force of men the laying of main for water service. Joseph and John B. Vaughn, two enterprising young farmers near Ashland, are working up a plan to hold a county fair in Hanover in June or July. They have met with considerable encouragement, and prospects look bright for ultimate success.

Doswell Station, above Ashland, is satisfied with its new depot, which is a very neat, handsome structure. It contains waiting rooms for white and colored women, one for men and a ticket office. It is heated by steam and cost about \$7,000. A modern building has been necessary at this point for a long time.

Mr. G. Frank Vaughan has rented his handsome home and farm at Gwynchmy of Mr. Rhonda of Richmond. He will move his family from the Henry Clay Inn and make his residence in our thriving little suburb.

The government has posted notices in the post-office asking for the building of a new post-office building. In places of the size of Ashland Uncle Sam will not build. He wants some one else to do the work, and he will not let the building required must have less than 1,000 square feet, lighted with gas or electricity, heated, and also have a large vault suitable for the purpose of storing all stock necessary to be kept on hand by the postmaster. Mr. H. Cramer, postmaster, is anxious to confer with any one who will put up the required building. The government wishes to lease for a long term of years, and is willing to pay a good rent.

SEIZE THE LIQUOR WHERE IT'S FOUND

Mrs. Stevens, President of W. C. T. U., Urges Such an Amendment to Law.

MAKE BEER WITHOUT ALCOHOL

WASHINGTON, D. C., February 8.—A subcommittee of the Senate Committee on the Judiciary, consisting of Senators Knox, of Pennsylvania, Fulton, of Oregon, and Bacon, of Georgia, today gave an extended hearing on the Tillman bill providing that upon the arrival of liquor within a State, before delivery to a consignee, they shall be held to the operation of the laws of the State, in the same manner as though such liquor had been produced in the State.

Mrs. L. M. Stevens, national president of the W. C. T. U., said that in Maine bogus express companies operate surreptitiously through keepers of "blind tigers," etc. In that way, she said, it is never possible to trace liquor to the consignees, as contemplated by the law as now interpreted by the Supreme Court. She wanted the law amended so that the liquor might be seized at the point of destination without regard to the consignee.

Opponents of the bill appeared in the persons of George W. Vest, president of the National Vial and Bottle Manufacturers' Association, and William Launer, secretary of the National Glass Bottle Association, who claimed the proposed legislation threatened their business, which they said employs 40,000 people.

Senator Bacon, of Georgia, suggested that the prohibition laws were enacted in Georgia there was a big brewery near his home, which every one supposed would be closed down. "But," added Senator Bacon, "they began to make a beer that had no alcohol in it. The Agricultural Department has pronounced it to be non-alcoholic, and now they are bottling more beer than ever before."

"It is certainly worth coming a long distance to the State," he said, "encouraging news," said one of the bottlers, who had come from Ohio to attend the hearing.

DISCUSS GREATER NAVY

Committee, Though Under Great Pressure, Will Probably Be Cautious.

WASHINGTON, D. C., February 8.—For nearly three hours the members of the House Committee on Naval Affairs thrashed over the "greater navy" question, preliminary to Monday's vote, which will decide whether the committee shall recommend an appropriation for the building of the fleet of receivers and trustees appointed by Hundley, was recalled by the committee and asked for an explanation of a resolution offered in the First National Bank, of Birmingham, commending the receivers Hundley had placed in power. This resolution was supported by Beners, but he said that subsequent acts of the receivers had not justified it.

Representative Hobson, of Alabama, who with Representative Lamar, of Missouri; Talbot, of Maryland, and Padgett, of Tennessee, visited the White House this week by the President's invitation to canvass the situation in the committee and in the House, commending the receivers Hundley, the meeting was executive. The outlook is that the committee will recommend the construction of only two battleships.

FIGHT ON JUDGE HUNDLEY.

Further Hearing by Committee Investigating Charges Against Him.

WASHINGTON, D. C., February 8.—The subcommittee of the Senate Committee on the Judiciary, appointed to investigate the charges against Judge C. R. Hundley, whose appointment as receiver of the Northern District of Alabama is before the Senate for confirmation, met today and examined T. G. Bush, of Birmingham, one of the receivers for the Southern Steel Company, whose appointment by Hundley is under the auspices of the Valentine School under the charges of chicken stealing. During the hearing a query was propounded as to whether Senator Johnston, of Alabama, had recommended the appointment of Bush to Judge Hundley. Senator Johnston, who was present at the hearing, emphatically denied that he had been the case. He said he was a warm friend of Bush, but had made no recommendation concerning his appointment as a receiver.

Federation Wants Them at All Public Schools.

A movement of widespread interest to people in Richmond is the effort to equip city schoolyards as public playgrounds. The Federation of Mothers' Clubs inaugurated the work a year ago and established Central Schoolyard as the center of its efforts. So much good was done that the idea has determined that each public school shall enjoy a similar privilege. Large sums are necessary for effective work, and various plans have been suggested. The first entertainment given for the purpose will be held on Thursday night at Central School, and the ladies hope confidently for a substantial support from their friends.
